

SPECIALIZED TRANSPORTATION

OVERWEIGHT MULTIDIMENSIONAL HAULING

Total Oilfield’s Specialized Transport Group is a dedicated team of industry leading professionals committed to providing a superior level of customer service, backed by our modern fleet of Heavy Haul power units and Specialized trailers.

Limited to no one industry, Total provides all-inclusive transportation services of overweight multidimensional cargo throughout North America, although particularly skilled in delivering these services in the harsh, remote northern climates. In addition to our transportation services we have experience in full site logistics, being able to work closely with the customer to provide and manage any number of additional services including, Jack & Roll, Cranes, Pickers, Planetary Bed Trucks, Service Crews, Site Supervision, & multi-load scheduling.

On call and available 24hrs a day 365 day per year we are ready to take on any project. Our people take great pride in what we do, and will deliver safe, efficient, organized and cost effective transport solutions consistently.
